If you will be billing your insurance:

Each insurance carrier has different rules and regulations concerning naturopathic medicine and acupuncture services. If it is your intention to bill your insurance company, it is **your responsibility** to call your insurance provider to obtain information concerning your benefits for these services. This is imperative to maximize your insurance reimbursement.

If your insurance covers part of the treatment cost, your co-payment will be billed to you. If your insurance does not cover these services, you are responsible for all fees.

For questions or to schedule your appointment, please contact the concierge desk or scheduling by phone at **(206) 306-2040** or **(206) 306-2800**.
